

# Our mission

Kimberton Waldorf School is dedicated to nurturing the developing child in accordance with the educational principles of Rudolf Steiner, and to building a supportive, diverse community around the children.

In our school community we endeavor to create social forms that ennoble human striving, recognizing the spiritual in each person.

The school fosters the unfolding individuality of each child by awakening the child's capacity to meet the world, others, and the self with

**warmth of heart,  
clarity of thought,  
and strength of purpose.**
