Dear KWS Parents,

March 5, 2020

I am writing to update you on the coronavirus (COVID-19) situation. The situation nationally is continually changing as new cases are diagnosed. So far, there are no case in our area or in Pennsylvania, and our situation at KWS has not changed since my last email to you. We have created a resource page on the KWS website where information, resources, and FAQs can be found (located under KWS Parent Page). We have attached the content of the webpage to this email as well. Please take the time to read it as it contains important information.

As Spring Break is approaching and families may be traveling, we ask that you inform the office of your travel plans (dates of travel and return as well as destinations). We are asking for this information in order to best assess future risk to our school and determine appropriate return parameters as needed based on location of travel. We recommend that anyone planning on traveling consult the CDC travel advisory and avoid travel to countries with a level 2 or 3 health warning, as travel to those countries would require a delay of returning to school for a period of at least 14 days after returning to the United States.

In addition, please let the school know if your student has had contact over Spring Break with someone who has recently traveled to a country with a level 2 or 3 travel warning, or has been in contact with someone with a confirmed case of COVID-19. We are grateful for your cooperation with this.

The webpage is found under KWS Parent Page and contains useful information and links to resources.

Sincerely,

Kevin Hughes
Dean of School
